

THE FIRE ENERGY *EXPERIENCE*

Transform Fear Into Excitement
Turn Limitation Into Motivation
Tap More Of Your Personal Power
Take Part In An Ancient Ritual

Ever since the fall of 1984 when Geoff first walked on fire, he has been convinced it is one of the most powerful and memorable experiences anyone could have. The “**Fire Energy Experience**” is much more than a seminar that teaches you to walk on fire. It's an incredible opportunity to challenge and change limiting beliefs and fears and to create some very powerful and resourceful emotional states within yourself.

This seminar is designed to do much more than prepare you to walk on hot coals, it's more a preparation for all the potential or symbolic fires that you will walk through out your life. The real benefit comes from the whole experience, not just the participation in the ancient ritual of walking across a bed of hot coals. Geoff has been leading firewalks since 1991 and spent over 12 years working closely with Anthony Robbins and many others. **Don't miss this unforgettable evening!**
